Dear Mr. Bezrodnov,

Thank you very much for bringing your program "**Moscow Nights**" to the students of Field School. Our children were able to experience many aspects of Russian culture, both past and present. The excellent presentation by the singers, dancers and instrumentalists enabled our children to interact with Russian children who represent their people with pride. This would not have been possible for our children without your help.

Being able to see young performers, close to their own ages, helped to make Russia "come alive". It means a great deal to me and the staff when performers take the time to recognize the needs of our students.

Thank you again for helping our children to experience another culture in such a vibrant and talented way. From the costumes, to the discussion of the instruments, to the audience participation, the entire performance was exemplary. All of you, but especially the children, represented their country and culture in a very noble way. Again, I greatly appreciate your ability to share your talents and music with our children.

Sincerely yours,
